

Welcome to your new e-prescribing solution!

The **NewCrop Prescribing Interface** has been upgraded to expedite your prescription writing. Please make note of these changes:

- **Prescribe** buttons throughout the application allow you to immediately take a prescription to the Transmit page.

- **Customized Sig Builders** are preselected and allow complex sigs to be written quickly.

- **Surescripts Drug History** has been enhanced to allow full medication reconciliation – comparing the Active Medication list against the information obtained from the PBM and the retail pharmacies.
