

EPCS

Electronic Prescriptions for Controlled Substances

- 1) An additional fee currently of \$155/Year is paid directly to NewCropRx.
- 2) You must complete is a one-time identification-proofing process. This “identification-proofing” process involves working with NewCropRx and sending documents to the doctor’s home address.
- 3) After identity proofing, the doctor is provided a physical device called a “security authentication token,” and/or an authorization application to install to a personal smart phone.
- 4) The additional step to send the prescriptions for controlled substances is a very easy process.

The pharmacies that can accept EPCS are available at:
