

Sending Immunizations via NewCrop

NewCrop can send immunizations to **some** state registries. Check with Data Tec to see if your state is included; if so we can assist you in testing and getting setup with NewCrop.

If NewCrop doesn't handle your state, talk to your state immunization registry and get the details on how they want you to send them the Immunization records.

1) Enter the Immunization Information

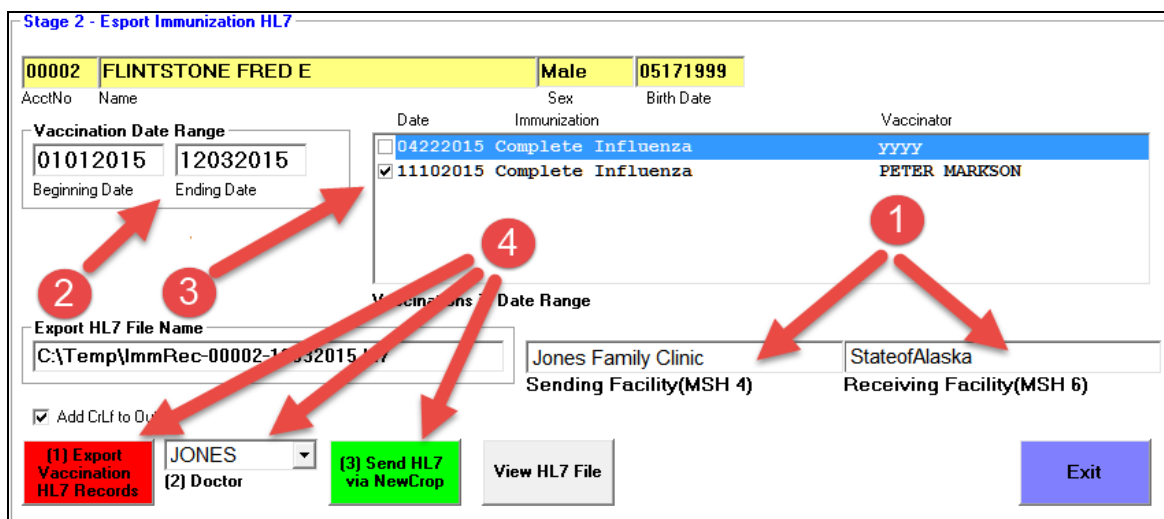

- A. Open the patients SOAP notes screen.
- B. Click the **"MU Components"** button and select **"Immunizations"**.
- C. Click **"Add Entry"**, Enter the information for the immunization, **"Save/Exit"**.

2) Send the Immunization

From the Immunization Screen, Click the **"Submit to Registry"** button.

On the **"Stage 2 - Export Immunization HL7"** screen:

- 1) Fill in the fields marked **(MSH 4)** & **(MSH 6)**, one time setup
- 2) Enter a **Vaccination Date Range** to pick from
- 3) Check mark the checkboxes next to immunization entries you want to send
- 4) Click **"(1) Export Vaccination HL7 Records"**
Click **"(2) Doctor"** drop down arrow for who is reporting
Click **"(3) Send HL7 via NewCrop"**

Stage 2 - Export Immunization HL7

00002 | FLINTSTONE FRED E | Male | 05171999
 AcctNo Name Sex Birth Date

Vaccination Date Range
 01012015 | 12032015
