Software Maintenance & Usage Fee

PowerSoftMD annual support, usage, and maintenance provides several key benefits.

1. Your software is kept up to date with the latest industry changes, including new HIPAA insurance and privacy requirements and NPI numbers.
2. Unlimited telephone support, answers to questions, computer system failure and recovery assistance, and even help train new staff.
3. New and time saving software enhancements. Free updates are always available on the Internet and we periodically send out update CD's to everyone. You can always request the latest updates on CD, free of charge.
4. The ability to request software add-ons and enhancements to meet your specific needs. These are programmed and added to *PowerSoftMD* at no charge.
5. Funding for research and development that continually enhances and improves *PowerSoftMD*, while keeping *PowerSoftMD* user friendly, yet powerful and state of the art.

PowerSoftMD has one of the lowest software support fees in the industry. You don't have to buy expensive updates, or pay to license *PowerSoftMD* on new or additional computers. Automatically your software will be kept up to date, just like your anti-virus software, or having regular maintenance on your car.

We have a long tradition, since 1984, of putting our client's needs and interest first. Keeping the support fees low, enhancing *PowerSoftMD*, and providing top notch service is truly a **win win** for everyone!
